

For a clean and comfortable
environment fit for learning

Nilfisk creates a clean environment for enhanced learning

To ensure a clean, creative and positive learning environment, you depend on the very best cleaning equipment and services. The need for daily cleaning and the presence of students for many hours each day means you must carefully balance your cleaning requirements with limited time and labor resources. As your cleaning partner, we are dedicated to helping you maintain a clean, safe and healthy learning environment.

Nilfisk – perfect for education:

- Minimizing environmental impact with Nilfisk Ecoflex, which helps you reduce water and chemical consumption
- Save labor by scrubbing floors clean and drying them in one pass
- Quiet machines allow for daytime cleaning
- Increase safety and reduce risk by minimizing chemical fumes, slippery floors and slip-and-fall accidents.

To assure the health, comfort and contentment of students and staff, you work hard to achieve the highest level of cleanliness in your facility.

The air quality, safety and environmental effects of your cleaning practices are important. Nilfisk's revolutionary and patented floor care solutions can help you reduce water and chemical consumption, improve indoor air quality and reduce the overall environmental impact of your floor cleaning practices.

The Nilfisk SC500 walk-behind scrubber dryer is carefully designed to improve productivity and drive down your total cleaning costs.

These significant benefits are achieved through more ease-of-use and a series of technical features enabling daytime cleaning and the most effective use of water and detergent.

A reliable choice for cleaning school floors.

Clever cleaning in class rooms and workshops

Clean and dust free environments help to create pleasant learning conditions that can improve student productivity.

With heavy footfall from students many hours a day, continuous daytime cleaning may be essential. Innovative technology and ease of use make our lines of automatic scrubbers, burnishers, vacuums and carpet extractors quieter and more efficient. Floors are cleaner and safer, and fewer chemicals and detergents are used, improving indoor air quality and safety for students and staff.

Nilfisk's products are designed to clean in confined areas, under furniture and as quietly as possible to minimize disruption.

Nilfisk provides a range of vacuum cleaners for effective cleaning of large areas and with a low sound level ideal for quiet daytime cleaning:

- Outstanding durability
- High filling capacity
- Low sound level
- Low energy consumption

In woodworking and metalworking workshops, students can be exposed to potentially harmful dusts.

Nilfisk is a specialist in this field and can offer expert advice and a range of industrial vacuum solutions to meet health and safety obligations.

From huge areas to small spots, wet, dry or a combination - Nilfisk has the answer

The VL wet & dry series from Nilfisk is designed and developed to the highest standards: Yours!

By partnering with our customers and users we have achieved a wet & dry vacuum cleaner that meets the requirements of the most demanding end users.

Combined with Nilfisk service and support, our wet & dry portfolio provides you with a reliable, high performance cleaning solution that is easy to operate with an attractive cost of ownership.

VL500 makes daily operation easy, fast and safe.

VL500 is available in different configurations and various container sizes; 35, 55 and 75 liter.

Nilfisk's wet and dry vacuums with dual filtration enables you to clean both wet and dry applications without changing filters.

VL500 offers performance and reliability and has features making daily cleaning tasks easier, faster and safer.

Glide through kitchens and canteens with ease

When preparing food for many students and staff members every day, it is important to maintain excellent hygiene standards in kitchens and canteens.

Nilfisk's range of scrubber dryers includes models that can offer both forward and backward scrubbing and drying, and the ability to clean in narrow areas hygienically and more productively than manual methods.

Nilfisk's cleaning machines deliver superior performance without sacrificing productivity – leaving kitchen floors clean, dry, safe and ready to use.

Nilfisk provides a range of efficient floor care machines, which are easy to use and maintain:

- Great maneuverability
- Ideal for less accessible areas.

For large area cleaning Nilfisk provides a range of ride-on scrubber dryers with a super low noise level, an ergonomic and compact design that allows these machines to clean just about anywhere.

Everything can be done just moving the steering wheel; as the machine turns, so does the deck.

Enjoy the ride to productivity

Different size areas and different floor types require a variety of cleaning solutions.

Nilfisk Ecoflex chemical dosing system ensures that every floor - from light traffic areas to heavily soiled traffic zones - are cleaned in the most environmentally gentle and lowest-cost way.

Riding on the machine is both comfortable and easy: all cleaning functions will be activated simply by pushing the One-Touch button.

The water/detergent flow is self-adjusting according to the speed of the machine, ensuring constant cleaning efficiency and saving water.

SC2000 is very compact and easy to maneuver, also in small spaces, and the low sound level enables daytime cleaning in noise sensitive areas.

High productivity is obtained through the working speed of 6 km/h together with high capacity water tanks, each holding 70 liters. The effective scrubbing width is 53 cm wide.

A clean campus, whatever the weather

Outdoor areas require ongoing maintenance throughout the seasons.

To ensure clean school surroundings, well-kept green areas and students' safety during winter we offer a range of compact and highly maneuverable outdoor utility machines.

The versatile range of tailor made attachments for each machine allows you to react to whatever weather brings – with a quick and easy shift of attachment you go from sweeping to mowing or snow clearance and gritting.

Easy, efficient and versatile outdoor cleaning all year round.

City Ranger 2250 for sweeping and vacuuming in Spring and Autumn, mowing grass in the Summer season plus sweeping snow and spreading gravel or salt in the Winter.

With the Park Ranger 2150 the changeover from one attachment to another is done in less than four minutes - no tools required.

Compact SW900 walk-behind sweeper for both indoor and outdoor use offers high cleaning performance and productivity.

Top of the class for efficient and cost-effective cleaning solutions

Nilfisk floor and surface cleaning equipment is used in all types of educational facilities all around the world. We clean everything from pre-school play areas to higher education lecture halls, as well as indoor classrooms, offices, entryways, hallways, auditoriums and gymnasiums.

We also offer machines to clean outdoor facilities such as school yards, bicycle lanes, parking facilities, athletic fields and sports complexes. Whatever your educational facility needs, Nilfisk is ready to offer you our commitment to superior value, reliability and efficiency.
